

# Make at Home Bird Feeders

Shared by Laura

**What you need:**  
**Empty tin can**  
**Paint**  
**Ribbon/string**  
**Lollipop stick/dowel**  
**Paint brush**  
**Bird seed**

**Paint you tin any  
colour**

***When the tin is dry  
it's time to  
decorate!  
We used our fingers  
to make flowers 🌸***

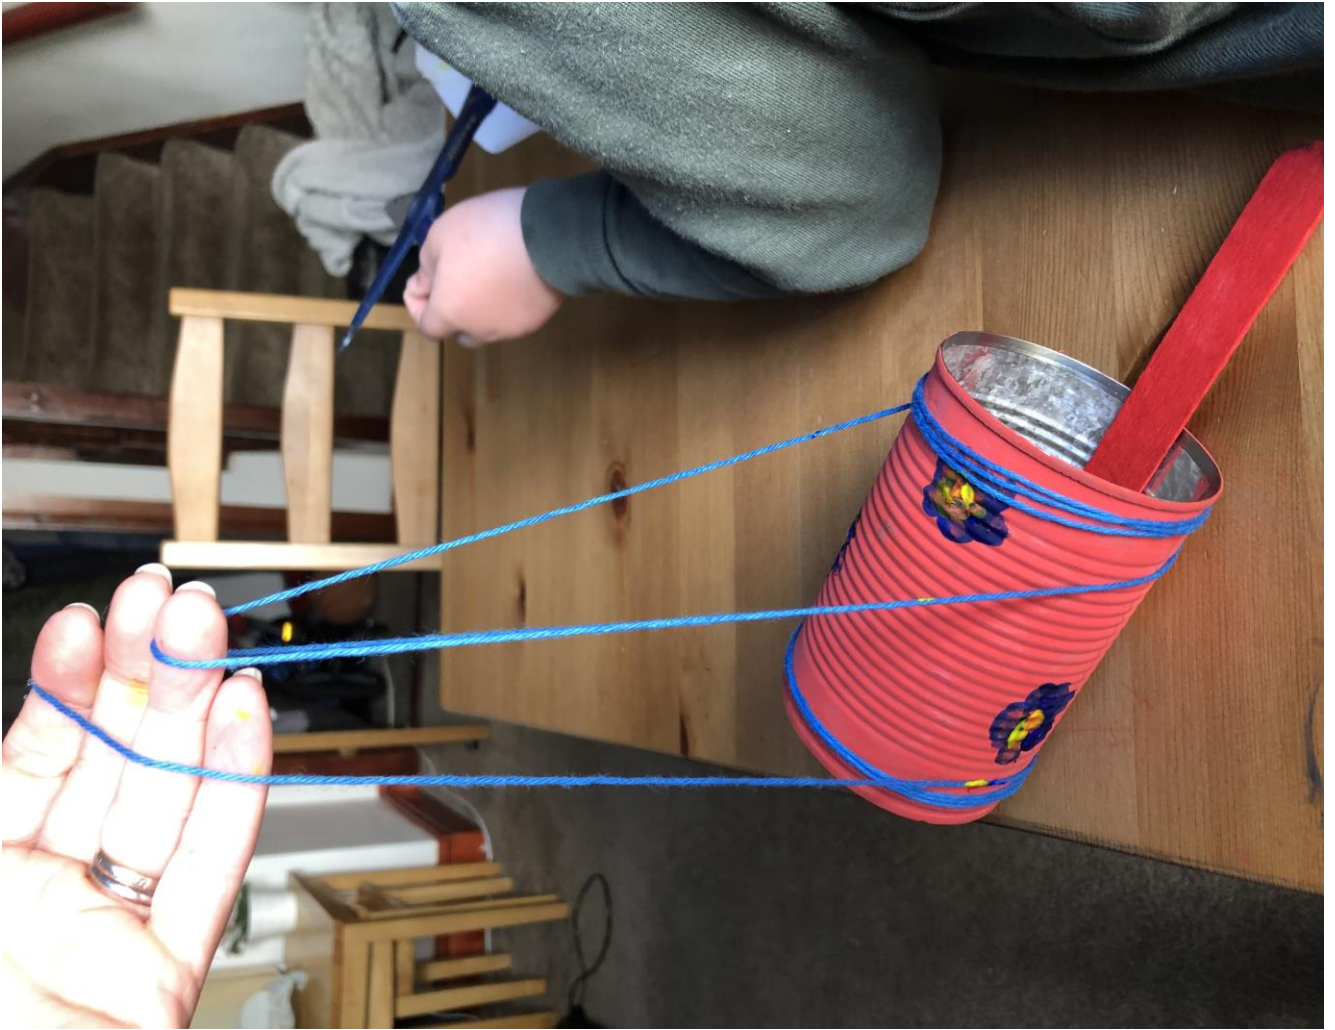

***Next we attached  
the lollipop stick so  
the birds would have  
something to stand  
on while feeding,  
and the string to  
hang it from the tree***

**Once everything is  
dry, fill the tin with  
seeds and hang in  
your garden!**
